### INGREDIENTS

One Model Car per group  
Roadway sheets 1 and 5  
List of Orderly Search Pattern

### INSTRUCTIONS

1. Divide the class into groups of three
  - Instructor
  - Driver
  - Observer
2. Give each group a car and Roadway sheet
  - Point out the roadway sheet represents rural roadways
3. Have the “Driver” position the car on an approaching curve
4. Have the “Instructor” read the steps for approaching a curve (Visual Search)
5. Ask the “Driver” to explain and perform each step
6. The “Observer” provides feedback to the “Driver” and the “Instructor”
7. Repeat the activity until each student has played each role

Use transparency or PowerPoint of the Roadway Sheets to give the students feedback for each step of the orderly visual search pattern
